EXCUSED ABSENCES

According to law (E.C. section 48205), your child will be excused for absence when it is:

- a. Due to his or her illness.
- b. Due to quarantine under the direction of a county or city health officer.
- c. For the purpose of having medical, dental, optometrical, or chiropractic services rendered.
- d. For the purpose of attending the funeral services of a member of his or her immediate family, so long as the absence is not more than one day if the service is conducted in California and not more than three days if the service is conducted outside California.
- e. For the purpose of jury duty in the manner provided by law.
- f. Due to the illness or medical appointment during school hours of a child of whom the pupil is the custodial parent.
- g. For justifiable personal reasons, including but not limited to an appearance in court, attendance at a funeral service, observance of a holiday or ceremony of his or her religion, attendance at religious retreats, attendance at an employment conference, or attendance at an educational conference on the legislative or judicial process offered by a nonprofit organization when the pupil's absence is requested in writing by the parent/guardian and approved by the principal or a designated representative pursuant to uniform standards established by the governing board.
- h. For the purpose of serving as a member of a precinct board for an election pursuant to Section 12302 of the Elections Code.
- i. For the purpose of spending time with a member of his/her immediate family, who is an active duty member of the uniformed services, as defined in E.C. section 49701, and has been called to duty for, is on leave from, or has immediately returned from, deployment to a combat zone or combat support position. Such absences will be granted for a period of time to be determined at the discretion of the Superintendent of the school district.
- j. For the purpose of attending his/her naturalization ceremony to become a United States citizen.

Obtaining Confidential Medical Services (E.C. section 46010.1)

A pupil may be excused from the school for the purpose of obtaining medical services that are private in nature and scheduled confidentially, that is, without the consent of the pupil's parent or guardian.

Absence for Religious Purposes (E.C. section 46014)

With your written permission, your child may be excused to attend religious exercises or to receive moral and religious instruction away from school. However, your child will be required to complete a certain number of minutes for that day. Such absences are limited to four days per month.

Absence to Care for a Sick Child (E.C. section 46015)

Absence to care for a sick child is an excused absence and the school is prohibited from requiring a note from a doctor for such an absence.

No Grade Reduction or Loss of Academic Credit (E.C. section 48205)

Your child shall not have his/her grade reduced or lose academic credit for any excused absence(s) if missed assignments and tests can be reasonably provided and are satisfactorily completed in a reasonable time.

SCHOOL ATTENDANCE OPTIONS

Enrollment in Neighborhood School (E.C. section 48980)

Generally, children may attend a school run by the district in which their parents reside. Districts usually enroll children in their neighborhood school. Their neighborhood school is the school which the district has designated to serve the area in which their family resides.

In addition, the district tries to provide options so that parents who reside in one attendance area may choose to enroll their child in a school that is designated to serve another attendance area. Further, families may choose to enroll their child at a school run by another school district all-together instead of attending a school run by their own school district.

The rules governing enrollment/attendance options are designed to not only address the diverse needs and interests of district families, but also balance enrollment in order to maximize the efficient use of district facilities. There are limitations and requirements associated with each such option and transportation assistance to and from the receiving school receiving the student is generally not provided.

Intradistrict Open Enrollment (E.C. section 35160.5(b))

The parents/guardians of any student who resides within district boundaries may apply to enroll their child in any district run school instead of their neighborhood school. However, no student currently residing within a school's attendance area may be displaced by another student transferring from outside the attendance area.

Enrollment priority is given to:

Students whose neighborhood school has been classified as "persistently dangerous." (20 USC 7912; 5 CCR 11992-11993.)

Any student who is a victim of a violent crime while on school grounds. (20 USC 7912; 5 CCR 11992-11993.)

Any student enrolled in a district school receiving Title I funds that has been identified for program improvement (PI), corrective action, or restructuring. (20 USC 6316.)

Any student enrolled in a district school that has been identified on the state's Open Enrollment List. (E.C. sections 48350-48361; 5 CCR 7400-4705.)

Additional priorities are set forth in the school district's intradistrict open enrollment policy (BP/AR section 5116.1).

The district determines the number of spaces available for each grade level and/or program at each district school to which a student attending another district school may transfer. Except for priorities listed above, the school district uses a random, unbiased selection process to determine who shall be admitted whenever the school receives enrollment requests that are in excess of the school's capacity at the pertinent grade level or in the pertinent program.

The application and selection process is more fully explained in the school district's intradistrict open enrollment policy (BP/AR section 5116.1) and the Open Enrollment Act transfers policy (BP/AR section 5118).

Interdistrict Transfers (E.C. section 46600(a)(b) and section 46601)

A. Interdistrict Attendance Agreements and Permits

A student who resides in one district may transfer to and enroll at a school in another district pursuant to a permit issued under an interdistrict attendance agreement between the two school districts. Both districts must consent to the transfer. The victim of an act of bullying, committed by a pupil of the district of residence, is given priority for interdistrict attendance.

Unless the interdistrict attendance agreement expressly provides otherwise, the student does not have to reapply annually, or at all, and must be allowed to continue to attend the school in which he or she first enrolls.

Neither the sending nor receiving districts are required to consent to the transfer. There is an appeal process if an application is denied. The appeal is to the county board of education with jurisdiction over the district denying the transfer.

The application and selection process is more fully explained in the school district's interdistrict enrollment policy (BP/AR section 5117).

B. Open Enrollment Act Transfers Pursuant to an Interdistrict Attendance Agreement (E.C. sections 48350-48361; 5 CCR 7400-4705)

A student may enroll in a school outside the district under an interdistrict attendance agreement in conjunction with the Open Enrollment Act. A student in a school on California's list of 1,000 lowest achieving schools may transfer to another school with a higher API in the school district or, if none, in a nearby district. Once enrolled at a school pursuant to an inter-district transfer, the transferring student may remain at that school unless the interdistrict attendance agreement between the two school districts expressly provides otherwise. The sending district may not deny the transfer request. The receiving district, however, may deny the transfer request. The county board of education may overrule a denial.

The application and selection process is more fully explained in the school district's Open Enrollment Act transfer policy (BP/AR section 5118).

C. School District of Choice Program (E.C. section 48300-48316)

A school district may enact the School District of Choice Program. The program allows the receiving district to enroll non-district students without the agreement of their district of residence. Under this program, priority

must be given to siblings of children already in attendance and the receiving district may also give priority to children of military personnel.

Once enrolled pursuant to the School District of Choice Program, the transfer is renewed automatically unless the governing board withdraws from the program. However, the student does not have a regulatory right to stay at the same school as in the case of a Section 46600 interdistrict attendance agreement. Additionally, the district of residence may impose a statutorily-set cap on the total number of students transferring out of the district, and the district of choice is required to give certain notices to districts of residence.

If a district has not chosen to become a School District of Choice, then a parent may not choose to transfer under the provisions of the program. The process is more fully explained in the school district's interdistrict enrollment policy (BP/AR section 5117).

Employment-Based Residency (E.C. section 48204(b))

A school district may adopt a policy which permits non-district students to enroll, without the agreement of their district of actual residence, if the student's parent or guardian is physically employed for a minimum of at least 10 hours per week within the geographical boundaries of the school district. A district adopting such a policy is not required to enroll every such student.

Once a student has enrolled pursuant to the employment-based residency rule, the student must be allowed to continue to attend a school within the district. However, there is no regulatory requirement that the student be allowed to continue to attend any particular school as in the case of a Section 46600 interdistrict attendance agreement. The process is more fully explained in the school district's interdistrict enrollment policy (BP/AR section 5111.12(a)).

Students Residing with a Care-giving Adult (E.C. section 48204(a)(5))

A student who lives in the home of a caregiving adult within the boundaries of the school district is a resident of the school district. If the caregiver provides an affidavit under penalty of perjury, pursuant to the California Family Code (commencing with Section 6550), that is a sufficient basis for determining the pupil lives in the home of the caregiver, unless the school district determines from actual facts that the pupil is not living in the caregiver's home. The process is more fully explained in the school district's residency policy (BP/AR section 5111.1).

Students Residing in a Licensed Children's Institution (E.C. section 48204(a)(1))

A student placed in a regularly established licensed children's institution, or a licensed foster home, or a family home pursuant to a commitment or placement under Welfare and Institutions Code, located within the boundaries of the school district may attend a school run by the district. The process is more fully explained in the school district's residency policy (BP/AR section 5111.1).

Foster Youth (E.C. sections 48204(a)(2) and 48853.5)

Students who are or become "Foster" children must be permitted to continue their education at their "school of origin" through the end of the academic year and maybe longer if that placement is in their best interests. This rule applies as long as they remain "Foster" children. On the other hand, if the district's Educational Liaison and the Foster family agree that enrollment in a "new" school is in the best interest of the "Foster" child, the new school must immediately enroll the child. Foster children must be allowed to matriculate with their peers in accordance with the established feeder patterns of the school district when transitioning to middle school or high school. The process is more fully explained in the school district's education for foster youth policy (BP/AR section 6173.1).

Emancipated Youth (E.C. section 48204(a)(4)); Fam. Code section 7000 and following)

An emancipated student whose residence is located within the boundaries of a school district is considered a resident of that district and may attend the district's schools. An emancipated student is a minor whose parent or legal guardian has been relieved of responsibility, control, and authority through an emancipation procedure in court. The process is more fully explained in the school district's residency policy (BP/AR section 5111.1).

Students Residing in a State Hospital (E.C. section 48204(a)(6))

A student residing in a state hospital located within the boundaries of a school district is deemed a resident of that district. The process is more fully explained in the school district's residency policy (BP/AR section 5111.1).

"Homeless" Students (42 USC 11413-114350)

A student whose parents come within the McKinney-Vento criteria for homelessness may, if they so choose, continue

enrollment in the school they were attending prior to becoming homeless even if now living elsewhere in or outside of the district's boundaries. Note that they may also choose the neighborhood school in their new district instead.

Also note that McKinney-Vento gives homeless students transportation rights. The new district and old district, together, must make transportation arrangements for the student. The process is more fully explained in the school district's education for homeless children policy (BP/AR section 6173).

Students Receiving Special Education Services Pursuant to an Individualized Education Program (IEP) or a 504 Plan (20 USC 1400 and following; 34 CFR 300.114-300.118)

IEP teams and the Individuals with Disabilities Education Act (IDEA), not district administrators and/or other federal/state legislation, determine the placement of IDEA eligible students. The requirements of IDEA necessitate placement where the student can receive a Free and Appropriate Public Education (FAPE) in the Least Restrictive Environment (LRE). LRE tends to create a preference favoring sites in relative close proximity to the student's home provided that the student can receive FAPE at that site.

The same is generally true of students receiving special education services pursuant to Section 504 of the Rehabilitation Act of 1973 (29 USC 794; CFR 104.33 and 104.34). The process is more fully explained in the school district's policies on Identification and Education Under Section 504 and on Individualized Education Programs (BP/AR sections 6164.6 and 6159).

Individualized Instruction (E.C. sections 48206.3 and 48980(b))

If your child has a temporary disability which prevents him/her from attending regular classes, the district will provide individual instruction when possible.

Students in Hospitals Outside of School District (E.C. sections 48206.3, 48207, 48208)

If, due to a temporary disability, your child is in a hospital or other residential health facility which is located outside your school district, he/she may be eligible to attend the school district in which the hospital is located. If this situation should arise, you should notify both the district where you reside and the district where the hospital is located so that individualized instruction, if possible, can be provided.

Alternative School or Class Group Within the District

A school district may establish and maintain an "alternative" school or a separate class group within the district, pursuant to E.C. section 58500 that is designed to maximize the opportunity for students to develop the positive values of self-reliance, self-motivation, initiative, kindness, spontaneity, resourcefulness, courage, creativity, responsibility, and joy.

Charter Schools (E.C. sections 47600-47663; 5 CCR 11963)

Charter Schools are governed by the Education Code, but free of most of the code's restrictions. The two main forms of charter schools are classroom-based or non-classroom-based instruction. Non-classroom-based instruction commonly referred to as "independent study," takes place primarily at home or outside the traditional classroom-based school setting.

Private Schools

Children may be instructed in a private full-time day school by persons qualified to teach in the State of California (E.C. sections 33190 and 33195). Private schools are selected and paid for by the student's parents.

Mentally Gifted Students (E.C. section 48223)

Children who are mentally gifted may be taught in a private full-time day school by persons qualified to teach in the State of California. Parents bear the costs of such schools.

Private Tutors (E.C. section 48224)

As an alternative to a private school, children may be instructed by a private tutor, who must hold a valid state credential for the applicable grade level. Parents and tutors are selected and paid for by student's parents.

Homeschooling

Homeschooling in California is either performed by a parent who files a private school affidavit, a parent who qualifies as a private tutor, or untrained parents who simply teach their child at home.

STUDENT MISCONDUCT AND DISCIPLINE

The Obligations of a Student While at School (5 CCR 300)

Every student must:

- Attend school punctually and regularly;
- Conform to the regulations of the school;
- Obey promptly all the directions of his teacher and others in authority;
- Observe good order and propriety of deportment;
- Be diligent in study; respectful to his/her teacher and others in authority; kind and courteous to schoolmates; and refrain entirely from the use of profane and vulgar language.

Teachers Are Required to Hold Students to Strict Account for Misconduct (E.C. section 44807)

Every teacher must hold students to a strict account for their conduct on the way to and from school, on the playgrounds, or during recess. Teachers may exercise that amount of physical control reasonably necessary to maintain order, protect property, or protect the health and safety of pupils, or to maintain proper and appropriate conditions conducive to learning.

Rules of the District Pertaining to Student Discipline (E.C. section 35291)

Student discipline is regulated by the California legislature and by board policy and procedures. The student discipline rules are detailed and exhaustive. Their purpose is to give school officials the legal authority to impose student discipline and also provide accused students with due process. The pertinent information is available either on line or hard copies can be provided.

Prohibited Behavior (E.C. section 48900 and following)

If a student engages in prohibited behavior, in addition to other forms of corrective action, he/she may be disciplined, including in school suspension, suspension from school and expulsion from the school district, depending on the circumstances.

Prohibited behavior includes volitional conduct amounting to or related to: assault, battery, threat, alcohol, drugs including Soma, firearms, knives, explosives, other dangerous objects, drug paraphernalia, robbery, extortion, destruction of property, stealing, receiving stolen property, tobacco, obscene acts, habitual profanity, disrupting school activities, defying the valid authority of teachers, administrators, or other school personnel, possessing an imitation firearm, sexual battery, sexual assault, intimidation of student witnesses, hazing, bullying sexual harassment, hate violence, harassment, intimidation and terroristic threats.

Classroom Correction and Non-Punitive in School Correction Preferred When Appropriate (E.C. sections 48900.5, 4800.6 and 48900.9)

Other means of correction are always preferred over in-school suspension, suspension from school, expulsion and any other form of exclusionary discipline that results in a pupil being removed from his/her regular classroom.

Suspension from School (E.C. section 48911)

A school principal (or the principal's duly assigned designee or the superintendent) may suspend a pupil from school for any conduct prohibited by Section 48900. The maximum duration of any single suspension is five school days.

Expulsion from the School District (E.C. section 48918)

When appropriate, the governing board may expel a student from the school district for any conduct proscribed by the Education Code, except 48900(k) disruption/defiance. The student is entitled to a hearing and due process. If expelled, the student is to receive a Rehabilitation Plan and a copy of the procedures to apply for readmission to the district.

Discipline of a Disabled Student Who Is Eligible for Special Education Pursuant to IDEA or Section 504 (E.C. section 48915.5 and 20 USC 1415(k))

Federal law governs the authority of school districts to suspend and expel disabled children from school. If the misconduct is a manifestation of the student's disability, after 10 days of suspension, the student must be returned to the pre-suspension placement unless his/her IEP team and parents agree otherwise. A disabled student may not be expelled for misconduct which is a manifestation of the student's disability.

Student Searches (New Jersey v. T.L.O. (1985) 469 U.S. 325)

A warrant or probable cause is not necessary for searches of students by school officials and the level of suspicion to justify the search need not rise to the level of probable cause. Rather, such a search by school officials must be:

- Justified in its inception - it must be reasonable to suspect the items searched contain evidence of prohibited conduct;

- Reasonably related in scope to the circumstances which justified the search in the first place. That is, the measures adopted are reasonably related to the objectives of the search and not excessively intrusive in light of the age and sex of the student and the nature of the infraction.

Law Enforcement Notification (E.C. section 48902)

The Education Code requires that the school principal to notify law enforcement in cases of student misbehavior involving:

- Assault with a deadly weapon or other instrument;
- Assault by means of force likely to produce serious bodily injury;
- Use, possession or sale of drugs and alcohol;
- Arranging for the sale of a substance represented to be drugs or alcohol;
- Possession of a firearm within a school zone;
- Possession of other weapons such as dirks or daggers at school; and
- Possession or furnishing of a firearm or an explosive at school.

Release of a Student to a Peace Officer (E.C. section 48906)

If a school official releases your student from school to a peace officer for the purpose of removing him/her from the school premises, the school official will take immediate steps to notify you or a responsible relative of your child, except when a student has been taken into custody as a victim of suspected child abuse. In those cases, the peace officer will notify the parent or responsible relative that the child is in custody and the place where the child is being held, unless the child would be endangered by disclosure of the place.

Property Damage or Personal Injury - Parents Liable (E.C. section 48904(a) and Civil Code section 1714.1)

Parents are liable for property damage or personal injuries caused by their child's willful misconduct in an amount up to \$25,000.00.

Damaged Library Materials - Parents Liable (E.C. section 19910)

The parent or guardian of a minor who willfully and maliciously cuts, tears, defaces, breaks, or injures any book, map, chart, picture, engraving, statue, coin, model, apparatus, or other work of literature, art, mechanics, or object of curiosity, deposited in any public library, gallery, museum, collection, fair, or exhibition is liable for all damages so caused by the minor.

Over Due Library Materials - Parents Liable (E.C. section 19911)

The parent or guardian of a minor who willfully and maliciously detains any book, newspaper, magazine, pamphlet, manuscript, or other property belonging to any public or incorporated library, reading room, museum, or other educational institution, for 30 days after notice in writing to return the article or property, given after the expiration of the time for which by the rules of the institution the article or property may be kept, is liable for all damages so caused by the minor.

Withholding Grades, Diploma, or Transcript (E.C. section 48904(b))

When your child willfully damages school property or if school property is loaned to your child and he/she refuses to return it when due, grades, diplomas and transcripts may be withheld. A voluntary work program in lieu of the payment of money may be arranged.

Attendance by Parent for a Portion of the School Day (E.C. 48900.1)

If your student willfully defies the authority of his/her teacher, disrupts classroom activity, commits an obscene act or habitually uses profanity or vulgarity, you may be required to attend school with your student for a portion of the school day.

Dress Code or Uniforms (E.C. section 35183(d))

If a school adopts a dress code or requires uniforms, parents are entitled to at least a six-month notice and the availability of resources to assist economically disadvantaged students.

Student Sexual Harassment (E.C. section 231.5; 5 CCR section 4917)

The district takes allegations of sexual harassment seriously. Students in grades 4 through 12 may be suspended or expelled for engaging in sexual harassment. A copy of the district's policy on student nondiscrimination/harassment and student sexual harassment is enclosed for your review.

Social Media Monitoring (E.C. section 49073.6)

The district reserves the right to monitor student use of technology within the jurisdiction of the district without advance notice or consent. Students shall be informed that their use of district technology, including, but not limited to, computer files, email, text messages, instant messaging, and other electronic communications, is not private and may be accessed by the district for the purpose of ensuring proper use. Students have no reasonable expectation of privacy in use of the district technology, Students' personally owned devices shall not be searched except in cases where there is a reasonable suspicion, based on specific and objective facts, that the search will uncover evidence of a violation of law, district policy, or school rules.

The Superintendent or designee may gather and maintain information pertaining directly to school safety or student safety from the social media activity of any district student in accordance with Education Code 49073.6. No individual or group shall, through physical, written, verbal, or other means, harass, sexually harass, threaten, intimidate, retaliate, cyberbully, cause bodily injury to, or commit hate violence against any student or school personnel.

Cyberbullying includes the creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images on the Internet, social media, or other technologies using a telephone, computer, or any wireless communication device. STUDENT SERVICES

Services to Disabled Pupils (E.C. section 56020 and following, 56301; 34 CFR 104.36)

If you have reason to believe that your child (ages 0 through 21 years) has a disability which requires special services or accommodations, bring this to the attention of the school office. You may request an assessment for eligibility for special education instruction or services through the school principal. Your child will be evaluated to determine whether he/she is eligible for special instruction or services.

Any request for assessment must be made in writing and received by the District. If a request for assessment is made via e-mail, the request will be considered received by the District when the e-mail is opened.

You will be notified in writing of all district decisions regarding the identification, evaluation, or educational placement of your student if he/she has a disability or suspected disability. All such notifications will include a statement regarding procedural safeguards, including but not limited to your rights to (1) examine relevant records, (2) have an impartial hearing with an opportunity for participation by you and your counsel, and (3) a review procedure.

Prospectus of School Curriculum (E.C. sections 49063, 49091.14)

The curriculum of every course offered by the schools of the district is compiled annually by each school in a prospectus which contains the titles, descriptions, and instructional aims of every course offered by each school. Each school prospectus is available for review upon request at each school site.

Pupil Nutrition/Notice of Free and Reduced Meal Prices (E.C. sections 49510-49520; 42 USC 1758 and 1773)

The Food Service Department will be on the Community Eligibility Provision. Under this Provision, all students in attendance may receive a free breakfast and lunch. This option eliminates the requirement of collecting meal applications. Community Eligibility Provision is not intended to diminish the quality of the meal program benefits offered to students. The State fully expects that our District continues to provide meal program benefits comparable with past performance and meet all the nutritional guidelines that govern the program.

Fingerprinting (E.C. section 32390)

Districts are authorized to offer fingerprinting programs for children enrolled in kindergarten or newly enrolled in the district. If the district has adopted such a program, on your child's initial enrollment you will be notified of procedures, any applicable fee, and your right to decline your child's participation.

Recommendations by counselors cannot differentiate between students on the basis of the student's sex and shall affirmatively explore with each student the possibility of careers and courses leading to careers that may be considered nontraditional for that student's sex.

HEALTH AND SAFETY SERVICES

Immunizations (E.C. sections 49403, 48216 and 48853.5; Health and Safety Code sections 120335, 120370, 120372, 120372.05 and 120375; 17 CCR 6025-6051, 6055 and 6070; 42 USC 11431.)

In order to protect the health of all students and staff and to curtail the spread of infectious diseases, the school district cooperates with state and local public health agencies to encourage and facilitate immunization of all district students against preventable diseases. Accordingly, parents must provide documentation of full immunization, in accordance with the age/grade and dose required by the California Department of Public Health (CDPH), against the following diseases:

1. Measles, mumps, and rubella (MMR);
2. Diphtheria, tetanus, and pertussis (whooping cough) (DTP, DTaP, or Tdap);
3. Poliomyelitis (polio);
4. Hepatitis B;
5. Varicella (chickenpox);
6. Haemophilus Influenza Type B (Hib meningitis); and
7. Any other disease designated by the CDPH.

Any first time newly admitted student who has not obtained the required immunization(s) within 10 school days following the parent/guardian's receipt of notice, must be excluded from school unless the student is exempt from immunization for medical reasons.

A medical exemption requires a written statement from a licensed physician to the effect that the physical condition or the medical circumstances of the child are such that immunization is not safe. The physician's statement must indicate the specific nature and probable duration of the medical condition or circumstances for which the physician does not recommend immunization.

If it is determined, however, that a child has been exposed to one of the 10 diseases named in the immunization requirements and does not have proof of immunization, the child may be temporarily kept out of school.

A student may also be exempt from the state immunization requirements if he/she is enrolled in an independent study program pursuant to Education Code sections 51745-51749.6 and does not receive any classroom-based instruction.

The "personal beliefs" exemption to the immunization requirements requires that parent submit a letter stating that they object to immunizations based on their personal beliefs and that letter must have been submitted no later than January 1, 2016. As most newly enrolling students were not born by January 1, 2016, this exemption is not available to them. For any continuing student, note that any personal beliefs exemption granted prior to January 1, 2016 is only effective until the student enters the next grade span. For this purpose, Health and Safety Code 12335 defines three

grade spans: birth through preschool, grades K-6 (including TK), and grades 7-12. For example, a student granted a personal beliefs exemption in preschool must be immunized when entering kindergarten, and a student granted such an exemption in grade 4 must be immunized when entering grade 7.

If the student has not been granted a valid exemption, the student must remain excluded from school until an immunization record is provided that certifies that he/she has received a dose of each required vaccine due at that time.

An immunization record must be either a personal record with entries made by a physician or agency performing the immunizations or a school record from the student’s previous school documenting the student’s immunizations.

A special education student who is not fully immunized must nevertheless continue to receive all his/her special education and related services. That is, the IEP must continue to be fully implemented.

Homeless children and foster youth must be immediately enrolled even if they are unable to produce records normally required for enrollment, including medical records.

Military families must be given 30 days from the date of enrollment to show that their children are fully immunized before being excluded. A transfer student must be given 30 days while his/her records are being transferred from a previous school before being excluded.

The rules governing the rights and obligations associated with immunizations and exclusion from school are more fully explained in board policy BP and AR 5141.31 and AR 5112.2.

If you have questions or concerns, you may contact and discuss those questions and concerns with the school nurse. If you are having financial difficulty fully immunizing your child or difficulty locating a medical provider, contact the school nurse for guidance. If you need a short extension of this timeline, also contact the school nurse.

Control of Communicable Disease (E.C. section 49403)

The district cooperates with the local health office in the control and prevention of communicable disease in school-age children. If you consent in writing, the district may permit any person licensed as a physician and surgeon, or any person licensed as a registered nurse, to administer an immunizing agent to your child. You will be advised in writing before any immunization program is instituted.

Administering Medication and Monitoring Health Conditions (E.C. sections 49414.5, 49414.7, 49423, 49423.1; 5 CCR 600-611; *American Nurses Association v. Torlakson* (2013) 57 Cal. 4th 570)

The district recognizes that during the school day, some students may need to take medication prescribed or ordered by an authorized health care provider to be able to fully participate in the educational program. Upon your written request and with the approval of your child's authorized health care provider, together with a release by parents, foster parents, or guardians of civil liability for such self-administration, a student with a medical condition who requires frequent treatment, monitoring, or testing (including but not limited to diabetes and asthma) may be allowed to self-administer, self-monitor, and/or self-test. Your child must observe universal precautions in handling blood and other bodily fluids.

Any medication prescribed by an authorized health care provider, including an emergency anti-seizure medication for a student with epilepsy, may be administered by the school nurse or other designated school personnel only when the Superintendent or designee has received a written statement from you indicating your desire for the district to assist your child in taking the medication and a written statement from your child's authorized health care provider detailing the name of the medication, method, amount, and time schedules by which the medication is to be taken. If the medication, dosage, frequency of administration, or reason for administration changes at some point in the year, you must provide a new written statement from your child's authorized health care provider.

When unlicensed personnel are authorized by law to administer a medication, such as emergency anti-seizure medication, epinephrine auto-injector, glucagon, or insulin, the Superintendent or designee will ensure that school personnel designated to administer it to students receive appropriate training from qualified medical personnel before any medication is administered. Additionally, such unlicensed personnel will be supervised by, and provided immediate communication access to, a school nurse or physician. In an emergency situation, such as a public disaster or epidemic, a trained, unlicensed district employee may administer medication to a student.

If your child is on a continuing medication regime for a non-episodic condition, you must inform the school nurse or other designated employee of the medication being taken, the current dosage, and the name of the supervising

physician. Necessary medications must be provided in properly labeled, original containers, along with the authorized health care provider's instructions. For prescribed or ordered medication, the container must have the name and phone number of the pharmacy, the student's identification, and the name and phone number of the authorized health care provider. With your consent, the school nurse or other designated employee, may communicate with your child's physician regarding the medication and its effects and may counsel school personnel regarding the possible effects of the medication on the student.

Physical Education

Please notify the nurse and Physical Education teacher if there are any physical conditions that would limit your child's activity in class. If your child is not to participate for a day or two, he/she must bring a note signed by a parent. If your child is to be out for more than 3 days, he/she must have a doctor's note.

Use of Sunscreen Permitted (E.C. section 35183.5)

Students may carry and use sunscreen without a doctor's note or prescription, and may also wear sun-protective clothing.

Health Care Coverage Information (E.C. section 49452.9)

The district has information on health care coverage options and enrollment assistance. If interested, please contact the school office for this information.

Physical Examinations (E.C. section 49451; 20 USC 1232h)

Physical examinations and screenings may be conducted at various times throughout the year. Those approximate times are during the fall of 2017. If you want your child to be exempt from physical examinations at school, file a written statement signed by you with the school refusing such an exam. However, when there is a good reason to believe that your child is suffering from a recognized contagious or infectious disease, he/she may be sent home and shall not be permitted to return to school until the contagious or infectious disease does not exist.

Dental Fluoride Treatment (Health and Safety Code section 104830)

Pupils may be provided the opportunity to receive topical application of fluoride or other decay-inhibiting agent to their teeth. Parents/guardians or eligible pupils should submit a written request for this treatment.

Medical and Hospital Services (E.C. section 49472)

The district provides coverage for immediate medical and surgical treatment of bodily injuries to a regularly enrolled student resulting from an accident occurring on school grounds or other facilities being used in the district's educational programs or during transportation to and from those places. This includes field trips and all interscholastic athletic competitions with the exception of tackle football. Coverage may be applicable for up to 52 weeks following the accident, with a limit of \$2,500, and the coverage applies for expenses that exceed the limit of, are less than the deductible of, or are simply not covered by, other insurance available to the student.

Scoliosis Screening (E.C. section 49452.5)

If your child is enrolled in grades 7 through 12 and is suspected of having curvature of the spine, please notify the school office. The district may screen female students in grade 7 and male students in grade 8 for the condition known as scoliosis. If the initial screening indicates the student may have scoliosis, additional screening may be required. You may request in writing that your student not be screened. If your child is identified at school as having this condition, you will be notified in accordance with the law.

Sight and Hearing Test (E.C. section 49452)

The district is required to provide for testing the sight and hearing of each student enrolled in its schools unless you submit a written denial of consent.

Information for Use in Emergencies (E.C. section 49408)

For protection of your child's health and welfare, we ask that you fill out and return the enclosed Emergency Information Card.

Confidential Medical Services Without Parental Consent (E.C. section 46010.1)

Tobacco-Free Schools/No Smoking Policy (Health and Safety Code section 104420)

The district’s governing board recognizes that the health hazards associated with smoking and the use of tobacco products, including breathing second-hand smoke, are inconsistent with its goal to provide a healthy environment for students and staff. The law requires that all recipients of any state and/or federal grant or contract maintain tobacco-free school sites.

Use of tobacco products at any time by students, staff, parents, or visitors, is strictly prohibited in district-owned or leased buildings, on district property, and in district vehicles. This prohibition applies to all employees, students, and visitors at any school-sponsored instructional program, activity, or athletic event held on or off district property. Any other person who violates the district's policy on tobacco-free schools shall be informed of the district's policy and asked to refrain from smoking. If the person fails to comply with this request, the Superintendent or designee may direct the person to leave school property, request local law enforcement assistance in removing the person from school premises, and/or prohibit him/her from entering district property for a specified period of time.

LIMITED ENGLISH PROFICIENT STUDENTS AND AVAILABLE LANGUAGE ACQUISITION ISSUES

English Learners/Available Language Acquisition Programs (E.C. section 310(b)(2))

If you indicated that your child's primary or home language is not English when registering your child for school, your child will take an English language assessment. In California public schools, all students entering school for the first time will be assessed with the Initial English Language Proficiency Assessments for California, or the Initial ELPAC. The Initial ELPAC is the test used to determine if a student is an English learner or is fluent in English. This is a required assessment to help identify students who need help learning English. This is important so that students receive the support needed to do well in all school subjects.

If your child is an English learner, he/she is offered English language development instruction targeted to their English proficiency level and designed to ensure English acquisition as rapidly and effectively as possible. Such programs are designed to be aligned with the state content standards and curriculum framework. They are based on sound instructional theory, use standard-aligned instructional materials, and will assist students in accessing the full educational program. A teacher who is assigned to provide either English language development, specially designed

academic instruction in English, and/or primary language instruction to English learners, must hold an appropriate authorization from the California Teaching Commission. The district's language acquisition programs for grades K-3 comply with class size requirements.

Parents/guardians of English learners may choose a language acquisition program that best suits their child. The district may offer one or more of the following language acquisition programs:

- A dual-language immersion program which provides integrated language learning and academic instruction for native speakers of English and native speakers of another language, with the goals of high academic achievement, first and second language proficiency, and cross-cultural understanding.
- A structured English immersion program for English learners in which nearly all classroom instruction is provided in English, but with curriculum and a presentation designed for pupils who are learning English.

An English learner may transfer to an English language mainstream classroom when he/she has developed the English language skills necessary to succeed in an English-only classroom is reclassified as fluent English proficient.

SCHOOL RECORDS AND ACHIEVEMENT

Pupil Records/Notice of Privacy Rights of Parents and Students (E.C. sections 49060, 49061, 49062, 49063, 49064, 49068, 49069, 49070, 49073, 49076, 49077; 20 USC 1232g; 20 USC 1232h; 34 CFR 99.3; 34 CFR 99.7; 34 CFR 99.30; 34 CFR 99.31; 34 CFR 99.33; 34 CFR 99.34; 34 CFR 99.35)

With certain exceptions, pupil records are confidential and will not be disclosed without your consent. If you have completed and signed a Caregiver's Authorization Affidavit for the purpose of enrolling a minor student in school, you have the right to access the student records of the child for whom you provide care. If you are 14 years old or older and are identified as both homeless and an unaccompanied youth, you may access your student records without parental consent.

Pupil records are any items of information (in handwriting, print, tape, film, microfilm, or other medium) that are directly related to an identifiable student, other than "directory information," and are maintained by the district or required to be maintained by an employee in the performance of his/her duties. Pupil records include the student's health record. District officials responsible for maintaining your child's records are the site administrators at each school site.

When your child enrolls or intends to enroll in another district, agency, or institution, we will forward his or her records to that district, agency, or institution within 10 school days of receiving a request as long as the disclosure is for purposes related to the student's enrollment. Various original records or copies of those records shall be retained permanently by the district.

Additionally, your child's records may be shared with school officials and employees of the District, and other persons connected with the District who have a legitimate educational interest, or other legally authorized purpose, and who may need your child's records to perform his or her tasks. "School officials and employees" are individuals whose duties and responsibilities to the district, whether routine or as a result of special circumstances, require that they have access to student records. A "legitimate educational interest" is an interest held by a school official, employee, or person outside the district, as further defined here and in board policy, whose duties, responsibilities or contractual obligations to the district, whether routine or as a result of special circumstances, require him/her to have access to student records. Persons outside the district who may have access to particular records that are relevant to their legitimate educational interest, or other legally authorized purpose, include those with a formal written agreement or contract with the District regarding the provision of services or functions outsourced to him/her by the District, including: contractors, consultants, insurance carriers, claims adjusters, accountants, attorneys, investigators, or other parties to whom the District has outsourced institutional services or functions, including third-party vendors and service providers who provide online educational software and/or services that are part of the district's educational program or who manage certain data stored in a secure cloud computing or web-based system for the district. The district uses the following outside vendors and may contract in the future to add similar products or services: Accelerated Reader; Atkinson, Andelson, Loya, Rudd, Romo; Edgenuity, Inc. Educational Testing Services; Self-Insured Schools of California; Aeries; Illuminate; Smarter Balance; Sync Solutions.

Pursuant to E.C. section 49064, a log or record must be maintained for your child's records listing all persons, agencies, or organizations

requesting or receiving information from the records and legitimate interests for that information. This log can be inspected at your child's school.

As a parent, you have a right to inspect and review your child's school records, including records possessed by a vendor under contract with the district to provide online services or products, and also including any information about your child collected from social media if the district is operating a social media collection program. To access individual student records, please contact your child's school. You also have a right to challenge the contents of your child's records, have an administrator assist you in interpreting the records, request amendment to ensure they are not inaccurate, misleading, or otherwise in violation of your child's privacy rights, seek expungement of those records, have a district-level hearing to appeal the decision not to change records, and file a complaint with the state and/or United States Department of Education if the district fails to comply with state and federal law with regard to your child's records. If your child's records include information concerning any disciplinary action taken in connection with your student, you have the right to include in the record a written statement or response concerning the disciplinary action. To review policies related to the review and/or expungement of your child's records, please contact your child's school. You also have the right to inspect all instructional materials which will be used in connection with any survey, analysis, or evaluation as part of any applicable program. If you would like a copy of your child's records, the cost of such duplication is \$0.25 a page.

Release of Pupil Directory Information (E.C. sections 49061(c)), 49070, 49073, 51938; 34 CFR 99.37; 20 USC 7908; 20 USC 1232h)

With certain exceptions, the law requires that the District obtain your written consent prior to disclosure of personally identifiable information from your child's education records. However, the District may disclose appropriately designated "directory information" without written consent, unless you have advised the District that you do not wish this information to be released in accordance with District procedures. The primary purpose of directory information is to allow the district to include this type of information from your child's education records in certain school and/or district publications. Outside organizations to which directory information may be disclosed include but are not limited to companies that sell class rings, school photography, graduation attire, and/or publish school yearbooks; news media; including but not limited to newspapers, magazines, and radio and television stations; nonprofit organizations; military recruiters; employers; and institutions of higher education.

Such student information may include a student's name, address, phone number, email address, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, degrees and awards received, and the most recent previous school attended by the student.

By law, the District must give notice to parents of the District's decision to release designated directory information, and must allow a parent to inform the District in writing that any or all of the information designated as directory information should not be released without parent consent. **THIS IS YOUR NOTICE.** If you do not want directory information about your student to be disclosed without your written consent, you must inform your child's school within thirty (30) days from the date of receiving this notification.

Directory information regarding a student identified as a homeless child or youth will not be released unless a parent, or student accorded parental rights, has provided written consent that directory information may be released.

MISCELLANEOUS

Local Control and Accountability Plan (E.C. sections 52060-52077)

The district is required to adopt a three-year Local Control and Accountability (LCAP) and to update the LCAP on or before July 1 of each subsequent year. The LCAP is required to identify annual goals, and specific actions geared toward implementing those goals, and must measure progress for student subgroups across multiple performance indicators based on eight priorities set by the state. The priorities must be aligned to the District's spending plan. The LCAP must be approved before the annual district budget can be adopted. Once the budget and the LCAP are adopted at the local level, the plan will be reviewed by the county superintendent to ensure alignment of projected spending toward goals and services. The following are the eight state priorities:

1. Providing all students' access to fully credentialed teachers, instructional materials that align with state standards, and safe facilities;
2. Implementation of and student access to state academic content and performance standards;
3. Parent involvement and participation;
4. Improving student achievement and outcomes along multiple measures;
5. Supporting student engagement;
6. Highlighting school climate and connectedness;
7. Ensuring all students have access to classes that prepare them for college and careers; and
8. Measuring other important student outcomes related to required areas of study.

The board of education is required to establish a parent advisory committee (PAC) and English learner parent advisory committee (ELPAC) to provide advice to the board of education and the superintendent regarding the LCAP. (ELPACs are required if enrollment in the district includes at least 15 percent English learners and the district enrolls at least 50 pupils who are English learners. Districts are not required to establish a new ELPAC if an English learner parent committee has already been established). PACs must include parents or legal guardians of low income students, English learner students, and foster youth.

Each district is required to consult with its teachers, principals, administrators, other school personnel, local bargaining units, parents, and pupils in developing the LCAP. As part of this consultation process, districts must present their proposed plans to the PAC and ELPAC. The advisory committees can review and comment on the proposed plan. Districts must respond in writing to the comments of the PAC and ELPAC. Districts are also required to notify members of the public that they may submit written comments regarding the specific actions and expenditures proposed in the LCAP.

Districts must hold at least two public hearings to discuss and adopt (or update) their LCAPs. The district must first hold at least one hearing to solicit recommendations and comments from the public regarding expenditures proposed in the plan and then adopt (or officially update) the LCAP at a subsequent hearing.

Districts are required to post the LCAP approved by the board of education, and any updates or revisions to the LCAP, on the district's website, and establish policies for filing a complaint of noncompliance under E.C. section 52075 using the uniform complaint procedures. Information regarding the requirements for the LCAP and the complaint process must be provided to pupils, parents/guardians, and employees on an annual basis.

Miscellaneous Parental Rights (E.C. section 49091.10)

The Education Empowerment Act of 1998 establishes various rights for parents in addition to other rights identified in this Annual Notice. Your rights as a parent include the following:

Upon written request, school officials will arrange for observation of a requested class or classes or activities in a reasonable time frame and in accordance with procedures determined by the district's governing board.

Consent for Evaluations: Your child may not be tested for a behavioral, mental, or emotional evaluation without informed written parental consent.

Affirmation or Disavowal of Beliefs: A pupil may not be compelled to affirm or disavow any particular personally or privately held world view, religious doctrine, or political opinion. The law does not relieve pupils of any obligation to complete regular classroom assignments.

- a. To observe in your child's classroom (upon reasonable notice).
- b. To meet with your child's teacher and the school principal (upon reasonable notice).

The Professional Qualifications of Your Student's Teacher(s) (34 CFR 200.61)

Federal law requires that the district tell you about your right to request information about the professional qualifications of your student's teacher(s). The same right extends to information about any paraprofessional assigned to work with your student.

You are entitled to ask for the following information:

- Whether the teacher has met state credential or license criteria appropriate to the grade level and subject matter in the class.
- Whether the teacher serves under an emergency permit or other provisional authorization.
- the baccalaureate degree, college major, and any other graduate certification or degree held by the teacher.
- Whether your student is provided services by a paraprofessional, and if so, that person's qualifications.

To submit a request for information about the qualifications of your student's teacher(s) or paraprofessional(s), please contact your student's school.

Technology, Use of the Internet and/or Online Sites and Online Advertising (20 USC 6777; 17 USC 3601; E.C. sections 35182.5, 49073.1)

The district provides Internet connections for many students during the educational day, and those Internet connections are filtered using a software program or programs designed to eliminate access to visual depictions that are obscene, child pornography, or harmful to minors. While the filters are designed to prevent connections to such material, new websites and material are added to the Internet every day and the district is unable to ensure that each and every inappropriate website or all such material will be blocked.

The district provides technology to students in many educational programs, including computers or electronic devices such as tablets or iPads or similar devices, and also provides Internet access as required for an educational program. Student use of such technology is subject to an Acceptable Use Policy and Agreement which describes acceptable and unacceptable uses of both the Internet connections and the computers or devices. Acceptable uses include communications between teachers and students about class assignments and other classroom topics, and between students on cooperative or collaborative learning projects. During that communication, which may include the use of social media (such as a district-sponsored Facebook page or similar types of social media), personally identifiable information may be shared by your student with other students and the teacher. The district prohibits disclosure of such information outside the classroom assignment/environment but cannot ensure that recipients of the information will comply with the restrictions. Unauthorized disclosures may lead to disciplinary action. If you do not want your student to be subjected to the risk of unauthorized disclosure of personally identifiable information that is disclosed by your student in these classroom assignments/environment, you will have an opportunity to so declare when required to read and agree to the Acceptable Use Policy and Agreement for your student. Refusal to sign the Acceptable Use Policy and Agreement will prevent your student's participation in such educational programs and may require transfer of your student to a technology-free classroom or environment.

The district may also permit personal devices to be used at school, which is also regulated by the Acceptable Use Policy and Agreement. Students' use of their personal devices may involve unintentional disclosure of personally identifiable information about your student via non-district software programs (apps) your student has on the personal device, or which other students may have on their personal devices, some of which are known to collect and use personal information for purposes having nothing to do with the district's educational program. Your permission for your student to bring and use a personal device on campus will be the subject of a written agreement and may be part of the Acceptable Use Policy and Agreement. Refusal to sign the Acceptable Use Policy and Agreement or other agreement will prevent your student's use of a personal device in such educational programs. If you do not consent to such disclosures via data collecting software present on the personal devices of other students, your student will not participate in such educational program and may be transferred to a technology-free classroom or environment.

The district does not intend to subject students to any advertising and will take steps to prevent advertising that targets students based on the advertiser's use of personally identifiable information. However, due to financial constraints under which the district is otherwise unable to provide the product or service which the advertising accompanies or to which it is attached, the district may be required to permit some advertising that is not targeted at individual students. Any such product or service will have been found by the district to be an integral component of pupil education. Parents/guardians of students in these programs may request that their student not be exposed to this advertising and the district will comply. This means your student will not participate in the educational program but will be required to obtain the educational benefit via a different method if the district is unable to block or otherwise avoid the advertising being presented to your student.

Distance Learning

Distance learning can be a viable alternative instructional strategy that supports student achievement of academic goals. Distance learning opportunities may be offered to students participating in independent study, credit recovery courses, enrichment courses, or other courses identified by the Superintendent or designee, or in the event that a

school site is physically closed due to widespread illness, natural disaster, or other emergency condition making a school site unsafe or otherwise interrupting the district's ability to effectively conduct operations at a school site.

The district may offer distance learning through a variety of delivery methods as appropriate for the grade level and subject matter. Distance learning opportunities may include video, audio, and/or written instruction in which the primary mode of communication between the student and teacher is online interaction, instructional television, live or prerecorded video, telecourses, and other instruction that relies on computer or communications technology. They may also include the use of print materials with written or oral feedback. As appropriate, courses may be self-directed to allow students to complete assignments at their own pace and/or may involve real-time interaction among the teacher and students.

To ensure that distance learning opportunities are available to all students, the district may contract with third parties for technological devices and the internet connections and, consistent with the district's budget and technology plan, may loan devices to students to use at home and/or assist families in identifying free service providers. Students are expected to use district technology responsibly in accordance with the district's Acceptable Use Agreement. In a distance learning environment, there may not be an option for you to elect a technology-free classroom or environment and personally identifiable information may be shared by your student with other students and the teacher, and any online vendors or service providers under contract with the district.

The district reserves the right to monitor student use of district technology within the jurisdiction of the district without advance notice or consent. Students' use of district technology including, but not limited to, computer files, email, text messages, instant messaging, and other electronic communications, is not private and may be accessed by the district for the purpose of ensuring proper use. Students have no reasonable expectation of privacy in use of the district technology. Students' personally owned devices used with any district technology shall not be searched except in cases where there is a reasonable suspicion, based on specific and objective facts, that the search will uncover evidence of a violation of law, district policy, or school rules.

Know Your Rights

Your Child Has the Right to a Free Public Education

- All children in the United States have a Constitutional right to equal access to free public education, regardless of immigration status and regardless of the immigration status of the students' parents or guardians.
- In California:
- All children have the right to a free public education.
- All children ages 6 to 18 years must be enrolled in school.
- All students and staff have the right to attend safe, secure, and peaceful schools.
- All students have a right to be in a public school learning environment free from discrimination, harassment, bullying, violence, and intimidation.
- All students have equal opportunity to participate in any program or activity offered by the school, and cannot be discriminated against based on their race, nationality gender, religion, or immigration status, among other characteristics.

Information Required for School Enrollment

- When enrolling a child, schools must accept a variety of documents from the student's parent or guardian to demonstrate proof of child's age or residency.
- You never have to provide information about citizenship/immigration status to have your child enrolled in school. Also, you never have to provide a Social Security number to have your child enrolled in school.

Confidentiality of Personal Information

- Federal and state laws protect student education records and personal information. These federal laws generally require that schools get written consent from parents or guardians before releasing student information, unless the release of information is for educational purposes, is already public, or is in response to a court order or subpoena.
- Some schools collect and provide publicly basic student "directory information." If they do, then each year, your child's school district must provide parents/guardians with written notice of the school's directory information policy, and let you know of your option to refuse release of your child's information in the directory.

Family Safety Plan if You Are Detained or Deported

- You have the option to provide your child's school with emergency contact information, including the information of secondary contracts, to identify a trusted adult guardian who can care for your child in the event you are detained or deported.
- You have the option to complete a Caregiver's Authorization Affidavit or a Petition for Appointment of Temporary Guardian of the Person, which may enable a trusted adult the authority to make educational and medical decisions for your child.

Right to File a Complaint

Your child has the right to report a hate crime or file a complaint to the school district if he or she is discriminated against, harassed, intimidated, or bullied on the basis of his or her actual or perceived nationality, ethnicity, or immigration status.

Programs to Encourage Parental Involvement/Annual Objectives (E.C. section 11503, 20 USC 6312 and 20 USC 6318)

To ensure that parents/guardians and family members of students are provided with opportunities to be involved in their children's education, each year the district endeavors to involve parents/guardians and family members by:

- Establishing district-level parent advisory committees;
- Inviting input from district committees and school site councils;
- Providing information about opportunities for parents/guardians and family engagement through the district newsletter, website, or other written or electronic means
- Providing copies of working drafts to parents/guardians;
- Providing a master calendar of district activities and district meetings;
- Ensuring that there is an opportunity at a public board meeting for public comment; and
- Assisting parents/guardians in understanding the state academic content standards and academic achievement standards, state and local academic assessments, and how to monitor a child's progress.

A more complete discussion may be found in board policy BP and AR 6020 and in the district's LCAP Annual Update posted on the district's website.

Procedures for Preventing Acts of Bullying, including Cyberbullying (E.C. section 234.1)

Any complaint of bullying must be investigated and, if determined to be discriminatory bullying, resolved in accordance with law and the district's uniform complaint procedures specified in board policy AR 1312.3. Discriminatory bullying includes bullying on the basis of race, color, national origin, sex, sexual orientation, gender identity or expression, age, disability, and/or another legally protected category. When "discriminatory bullying" is committed and the bullying is sufficiently serious to create a hostile educational environment for the alleged victim to otherwise deny or limit the student's educational benefits and services, including denial of a free appropriate public education, the a victim must be afforded the protections specified under relevant state and/or federal law.

If, during the investigation, it is determined that a complaint is about nondiscriminatory bullying, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

The district must develop strategies for addressing bullying in its schools and do so with the involvement of students, parents/guardians, and staff. District may also collaborate with social services, mental health services, law enforcement, courts, and other agencies and community organizations in the development and implementation of effective strategies to promote safety in schools and the community.

For more information regarding the district's general anti-bullying policy please review board policy BP and AR 5131.2 and 5145.3.

Child Health and Disability Prevention Program (Health and Safety Code sections 323.5, 324.2, 324.3; E.C. sections 49450, 49452.8)

Good health, including good oral health, is important to your child's learning and successful academic career. State law requires that for each child enrolling in the first grade, the parent must present a certificate signed by a physician verifying that the child has received a physical examination within the last 18 months. Likewise, state law requires that by May 31 of your child's first school year in a public school, proof of an oral health assessment by a licensed dentist must be presented. You may file with the district a written objection or waiver stating the reasons if you are unable to obtain such services. Your child may be sent home if you fail to provide the certificate or waiver, or if your child is suspected to be suffering from a contagious disease. You may find it convenient to have your child immunized at the same time that the physical examination is conducted. These services may be available to you at no cost through the Child Health and Disability Prevention Program ("CHDP"). For information, you may contact Linda Hinojosa, Director of Health Services, (661) 721-7036.

Vision Appraisal (E.C. section 49455)

The district is required to appraise each student's vision upon initial enrollment and in grades 2, 5, and 8, except that a student first enrolling in grade 4 or grade 7 will not be reappraised the following year. The appraisal will include tests for visual acuity and color vision; however, color vision will be appraised once and only on male students. The evaluation may be waived upon presentation of a certificate from a physician and surgeon, physician's assistant, or optometrist setting out the results of a determination of the student's vision, including visual acuity and color vision. The appraisal does not apply to a pupil whose parent/guardian files with the principal a written statement that they adhere to the faith or teachings of any well-recognized religious sect, denomination, or organization and in accordance with its creed, tenets, or principles depend on prayer for healing in the practice of their religion.

Type 2 Diabetes (E.C. section 49452.7)

TYPE 2 DIABETES INFORMATION

Type 2 diabetes is the most common form of diabetes in adults.

- Until a few years ago, type 2 diabetes was rare in children, but it is becoming more common, especially for overweight teens.
- According to the U.S. Centers for Disease Control and Prevention (CDC), one in three American children born after 2000 will develop type 2 diabetes in his or her lifetime.

Type 2 diabetes affects the way the body is able to use sugar (glucose) for energy.

- The body turns the carbohydrates in food into glucose, the basic fuel for the body's cells.
- The pancreas makes insulin, a hormone that moves glucose from the blood to the cells.
- In type 2 diabetes, the body's cells resist the effects of insulin, and blood glucose levels rise.
- Over time, glucose reaches dangerously high levels in the blood, which is called hyperglycemia.
- Hyperglycemia can lead to health problems like heart disease, blindness, and kidney failure.

Risk Factors Associated with Type 2 Diabetes

It is recommended that students displaying or possibly experiencing the risk factors and warning signs associated with type 2 diabetes be screened (tested) for the disease.

Risk Factors

Researchers do not completely understand why some people develop type 2 diabetes and others do not; however, the following risk factors are associated with an increased risk of type 2 diabetes in children:

- **Being overweight.** The single greatest risk factor for type 2 diabetes in children is excess weight. In the U.S., almost one out of every five children is overweight. The chances are more than double that an overweight child will develop diabetes.
- **Family history of diabetes.** Many affected children and youth have at least one parent with diabetes or have a significant family history of the disease.
- **Inactivity.** Being inactive further reduces the body's ability to respond to insulin.
- **Specific racial/ethnic groups.** Native Americans, African Americans, Hispanics/Latinos, or Asian/Pacific Islanders are more prone than other ethnic groups to develop type 2 diabetes.
- **Puberty.** Young people in puberty are more likely to develop type 2 diabetes than younger children, probably because of normal rises in hormone levels that can cause insulin resistance during this stage of rapid growth and physical development.

Warning Signs and Symptoms Associated with Type 2 Diabetes

Warning signs and symptoms of type 2 diabetes in children develop slowly, and initially there may be no symptoms. However, not everyone with insulin resistance or type 2 diabetes develops these warning signs, and not everyone who has these symptoms necessarily has type 2 diabetes.

- Increased hunger, even after eating
- Unexplained weight loss
- Increased thirst, dry mouth, and frequent urination
- Feeling very tired
- Blurred vision
- Slow healing of sores or cuts
- Dark velvety or ridged patches of skin, especially on the back of the neck or under the arms
- Irregular periods, no periods, and/or excess facial and body hair growth in girls
- High blood pressure or abnormal blood fats levels

Type 2 Diabetes Prevention Methods and Treatments

Healthy lifestyle choices can help prevent and treat type 2 diabetes. Even with a family history of diabetes, eating healthy foods in the correct amounts and exercising regularly can help children achieve or maintain a normal weight and normal blood glucose levels.

- **Eat healthy foods.** Make wise food choices. Eat foods low in fat and calories.
- **Get more physical activity.** Increase physical activity to at least 60 minutes every day.
- **Take medication.** If diet and exercise are not enough to control the disease, it may be necessary to treat type 2 diabetes with medication.

The first step in treating type 2 diabetes is to visit a doctor. A doctor can determine if a child is overweight based on the child's age, weight, and height. A doctor can also request tests of a child's blood glucose to see if the child has diabetes or pre-diabetes (a condition which may lead to type 2 diabetes).

Types of Diabetes Screening Tests That Are Available

- **Glycated hemoglobin (A1C) test.** A blood test measures the average blood sugar level over two to three months. An A1C level of 6.5 percent or higher on two separate tests indicates diabetes.
- **Random (non-fasting) blood sugar test.** A blood sample is taken at a random time. A random blood sugar level of 200 milligrams per deciliter (mg/dL) or higher suggests diabetes. This test must be confirmed with a fasting blood glucose test.
- **Fasting blood sugar test.** A blood sample is taken after an overnight fast. A fasting blood sugar level less than 100 mg/dL is normal. A level of 100 to 125 mg/dL is considered pre-diabetes. A level of 126 mg/dL or higher on two separate tests indicates diabetes.

- **Oral glucose tolerance test.** A test measuring the fasting blood sugar level after an overnight fast with periodic testing for the next several hours after drinking a sugary liquid. A reading of more than 200 mg/dL after two hours indicates diabetes.

Type 2 diabetes in children is a preventable/treatable disease and the guidance provided in this information sheet is intended to raise awareness about this disease. Contact your student's school nurse, school administrator, or health care provider if you have questions.

At each school receiving Title I funds, a written policy on parent/guardian and family engagement shall be developed jointly with the parents/guardians and family members of participating students. Such policy shall describe the means by which the school will: (20 USC 6318)

1. Convene an annual meeting, at a convenient time, to which all parents/guardians of participating students shall be invited and encouraged to attend, in order to inform parents/guardians of their school's participation in Title I and to explain Title I requirements and the right of parents/guardians to be involved
2. Offer a flexible number of meetings, such as meetings in the morning or evening, for which related transportation, child care, and/or home visits may be provided as such services relate to parent/guardian involvement
3. Involve parents/guardians in an organized, ongoing, and timely way in the planning, review, and improvement of Title I programs, including the planning, review, and improvement of the school's parent/guardian and family engagement policy and, if applicable, the joint development of the plan for schoolwide programs pursuant to 20 USC 6314

The school may use an existing process for involving parents/guardians in the joint planning and design of the school's programs provided that the process includes adequate representation of parents/guardians of participating students.

4. Provide the parents/guardians of participating students all of the following:
 - a. Timely information about Title I programs
 - b. A description and explanation of the school's curriculum, forms of academic assessment used to measure student progress, and the achievement levels of the challenging state academic standards

(cf. 5121 - Grades/Evaluation of Student Achievement)

(cf. 5123 - Promotion/Acceleration/Retention)

- c. If requested by parents/guardians, opportunities for regular meetings to formulate suggestions and to participate, as appropriate, in decisions related to their children's education, and, as soon as practicably possible, responses to the suggestions of parents/guardians
5. If the schoolwide program plan is not satisfactory to the parents/guardians of participating students, submit any parent/guardian comments when the school makes the plan available to the district
6. Jointly develop with the parents/guardians of participating students a school-parent compact that outlines how parents/guardians, the entire school staff, and students will share responsibility for improved student academic achievement and the means by which the school and parents/guardians will build a partnership to help students achieve state standards

This compact shall address:

- a. The school's responsibility to provide high-quality curriculum and instruction in a supportive and effective learning environment that enables participating students to achieve the state's challenging academic achievement standards
- b. Ways in which parents/guardians will be responsible for supporting their children's learning, volunteering in the classroom, and participating, as appropriate, in decisions related to their children's education and the positive use of extracurricular time

(cf. 1240 - Volunteer Assistance)

(cf. 5020 - Parent Rights and Responsibilities)

(cf. 5113 - Absences and Excuses)

(cf. 6145 - Extracurricular/Cocurricular Activities)

(cf. 6154 - Homework/Makeup Work)

- c. The importance of communication between teachers and parents/guardians on an ongoing basis through, at a minimum:
 - (1) Parent-teacher conferences in elementary schools, at least annually, during which the compact shall be discussed as it relates to the student's achievement
 - (2) Frequent reports to parents/guardians on their children's progress
 - (3) Reasonable access to staff, opportunities to volunteer and participate in their child's classroom, and observation of classroom activities
 - (4) Regular two-way, meaningful communication between family members and school staff, and, to the extent practicable, in a language that family members can understand
7. Build the capacity of the school and parents/guardians for strong parent involvement by implementing the required activities described in item #2 in the section "District Strategies for Title I Schools" above
8. To the extent practicable, provide opportunities for the informed participation of parents/guardians and family members (including parents/guardians and family members with limited English proficiency, parents/guardians and family members with disabilities, and parents/guardians and family members of migrant children), including providing information and school reports required under 20 USC 6311(h) in a format and language such parents/guardians can understand

If the school has a parent involvement policy that applies to all parents/guardians, it may amend that policy to meet the above requirements. (20 USC 6318)

Each school's parent/guardian and family engagement policy shall be made available to the local community. Parents/guardians shall be notified of the policy in an understandable and uniform format and, to the extent practicable, provided in a language the parents/guardians

can understand. (20 USC 6318)

Each school receiving Title I funds shall annually evaluate the effectiveness of its parent/guardian and family engagement policy. Such evaluation may be conducted during the process of reviewing the school's single plan for student achievement in accordance with Education Code 64001.

ELECTRONIC NOTIFICATION OPT-IN FORM

Dear Parent/Guardian:

Effective January 1, 2013, the law allows parents to choose to receive the Student/Parent Handbook in an electronic format. Our Student/Parent Handbook is now placed on our district Web site at www.duesd.org.

If you have access to the web, please consider the electronic notification option, which will decrease the burdensome costs of printing and distributing the Student/Parent Handbook to every parent/guardian at the start of each new school year. This simple act of electing to receive the Annual Notice by viewing our Web site will save tax dollars and trees.

If you agree to receive the Student/Parent Handbook in an electronic format, please sign and date below and then return this form with your 2019-2020 Parent forms. This change takes effect for this school year's Student/Parent Handbook Notice and you will continue to receive the handbook electronically each subsequent school year, unless you notify the District Office.

Please select one below:

- I will visit the District's Web site at www.duesd.org and will review the Student/Parent Handbook. I will also print the Parent Forms, sign and date forms, and will return it to my child's school. (You may visit your school site for copies of the forms if needed)**

- I would like to continue to receive a printed copy of the Student/Parent Handbook.**

- Electronic Mail. Electronic mail (E-Mail) is not guaranteed to be private. Messages relating to or in support of illegal or unethical activities must be reported to the District.

Recommended Practices

Use accurate and descriptive titles for your articles and subject lines for your e-mail. Tell people what it is about before they read it.

Get the most appropriate audience for your message, not the widest. Avoid posting and bulk mailing of large messages. Remember that if you post to multiple groups, specify all groups in a single message.

Be brief. Fewer people will bother to read a long message.

Minimize spelling errors and make sure your message is easy to understand and read.

Forgive the spelling and grammatical errors of others.

Remember that humor and satire is very often misinterpreted.

Post only to groups you know.

Cite references for any facts you present.

Keep signatures brief.

Remember that all network users are human beings. Don't "attack" correspondents; persuade them with facts.

DANGEROUS OBJECTS ON SCHOOL CAMPUSES

The Delano Union School District continues to view Parents as Partners in education. A primary goal in education is to ensure school sites are safe and secure learning environments.

Parents can help keep our school sites safe and secure by discussing with your child that dangerous objects are not allowed on a school campus. At home keep dangerous objects put away and out of sight. Dangerous objects include firearms, knives, explosives, fireworks, matches, lighters or other dangerous objects which may cause harm to others. Knives commonly found in agriculture are not acceptable in a school setting. The recommendation for students who bring dangerous objects to school will be expulsion.

Please discuss these issues with your child to ensure students of the importance of school safety within the Delano Union School District. We appreciate your continued support in keeping all dangerous objects out of the hands of our students.

Concussion Information Sheet

A concussion is a brain injury and all brain injuries are serious. They are caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. They can range from mild to severe and can disrupt the way the brain normally works. Even though most concussions are mild, **all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly.** In other words, even a “ding” or a bump on the head can be serious. You can’t see a concussion and most sports concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, seek medical attention right away.

Symptoms may include one or more of the following:

Concussion Information Sheet

What can happen if my child keeps on playing with a concussion or returns to soon?

Athletes with the signs and symptoms of concussion should be removed from play immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after that concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one. This can lead to prolonged recovery, or even to severe brain swelling (second impact syndrome) with devastating and even fatal consequences. It is well known that adolescent or teenage athlete will often under report symptoms of injuries. And concussions are no different. As a result, education of administrators, coaches, parents and students is the key for student-athlete's safety.

If you think your child has suffered a concussion

Any athlete even suspected of suffering a concussion should be removed from the game or practice immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without medical clearance. Close observation of the athlete should continue for several hours. The new CIF Bylaw 313 now requires implementation of long and well-established return to play concussion guidelines that have been recommended for several years:-

“A student-athlete who is suspected of sustaining a concussion or head injury in a practice or game shall be removed from competition at that time and for the remainder of the day.”

and

“A student-athlete who has been removed may not return to play until the athlete is evaluated by a licensed health care provider trained in the evaluation and management of concussion and received written clearance to return to play from that health care provider”.

You should also inform your child's coach if you think that your child may have a concussion Remember it's better to miss one game than miss the whole season. And when in doubt, the athlete sits out.

For current and up-to-date information on concussions you can go to:
